Nakusp, a town with a big heart...

Nakusp was first established during the mining boom in the Slocan Valley at the turn of the twentieth century. It was expected that Nakusp would also become a mining boomtown, and the Nakusp Slocan railway was completed in 1893. With the building of the smelter in Trail, however, the plan for a smelter in Nakusp vanished. Rich timberland in the Nakusp area gave rise to a local sawmill and logging industry, while many pioneers settled the fertile land along the Arrow Lakes and established prosperous fruit and vegetable farms.

Several paddle steamers came into service on the lakes, transporting settlers, produce, vacationers, and just about everything else. The boats were retired from active service in the early 1950s.

The Village of Nakusp, welcomes rally guests. We encourage you to get to know the town, its people and its amenities. After a long motorcycle ride take a walk on the lakeside promenade. Be sure to take in the Farmers Market at 5th & Broadway Saturday morning after the Rotary Pancake breakfast. History buffs will want to visit the Nakusp and District Museum which features a collection of 3,000 unique artifacts, antiques and photographs, including photos of the now submerged towns that dotted the Arrow Lakes before the flooding of the 1960s for the Columbia River hydro power project.

All services are available in Nakusp including motorcycle repairs.

Nakusp's Pioneers

It has become a tradition at Hotsprings Rallies that we drop by to visit the folks at the Halcyon Community Home. Although not as mobile as they once were the fires of adventure still burn brightly in these pioneers. Please join us at the registration plaza at 1:45 p.m. Friday as we gather to parade our motorcycles to the Home and share the joy as "The World's Oldest BMW Riders" cruise Broadway.

Village Campground

The Manager/Host of Nakusp's Village campground is Andy Desaunoy. Bee Cee Beemers appreciate his hard work and hospitality and encourage you to say "hello" to him. Please note that the shower facilities are limited so you may want to schedule your ablutions for off peak times.
